### **President's Message**

Hope everyone is enjoying this light winter. It has been nice to be able to walk outside in February. At our meeting on Feb. 23rd, Olin Hatfield will give a program on how to make a table out of a single board. It will be similar to the one that he attended in KC.

## Øland Tool

This past weekend was the first weekend I had completely free since the first of December and it was too cold to do much outside. So, I fired up the heaters and spent some time in the shop working on a couple of Øland tools. I have not had much opportunity to use them but I did put a couple of pieces of firewood on the lathe and they will make the shavings fly. I ordered a ¼ inch high speed steel tool bit from McMaster-Carr and also found a set of 5/16 inch bits at Harbor Freight here in town. You can get more information about making Øland tools at the following websites:
