January 2018

President's Letter

Greetings Woodworkers:

I hope all had a Merry Christmas / Happy New Year and completed those Christmas projects on time for Santa to deliver! We had a good time and plenty to eat at the Christmas dinner with the kids from Coyote Hills. The Rubber Band Dragster Contest could have used a few more contestants, but the race was a lot of fun and some of the cars were very fast. Sorry there were no photos because of the Coyote Hills not allowing pictures. I would recommend that those that had cars bring them as show and tell for the next meeting.

On a sad note: We lost a good member Dale Andrews in December. Condolences to Dale's family and to his brother Paul Andrews. Dale was our membership chairman and was always there with a new pen for show and tell. He will be missed.

We have a new tool equipment store (Taylor Toolworks) in town. They are mostly an online sales company, but do have tools in stock if you want to pick up at their store and save freight. Hopefully we will have them for a presentation of their tools soon, but in the mean time you can look them up on line: www.taytools.com

The Woodworking show schedule is out with shows in Kansas City and St. Louis as well as other locations. You can buy tickets on line at a discount: www.thewoodworkingshows.com I would like to go this year to either location and will have room for a rider or 3. We could have a car pool if there are several interested in the event.

St. Louis: February 9-11

Kansas City: February 16-17

NEXT MEETING: January 22, 2018 6:30 PM.

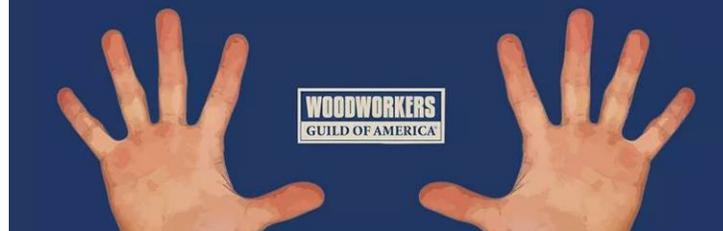

The Joy of Woodturning: by Ernest Hilderbrand

Boone County Millwork

2112 Vandiver Drive Columbia, Mo.

Please bring some show and tell including your Dragsters and get ready to have some fun.

**WOODWORKING PRO TIP:
COUNT YOUR FINGERS WHEN
YOU START A PROJECT,
COUNT THEM WHEN FINISHED.
NUMBER SHOULD MATCH.**

Norm Anderson

MWA Christmas Toy Project

The 2017 MWA Christmas Toy Project was a success and it's time to start again for 2018. We distributed about 1,000 cars at the Hartsburg Pumpkin Festival and raised money from donations to buy wheels and axle pegs. Just before Christmas 2017, we distributed 1,100 toy cars, busses, and trucks to a number of children's service agencies around Columbia and Boone County. Please be on the lookout for 2x construction scraps to use. Plans for car bodies are on the club's website or make up your own. Holes for axle pegs should be drilled with a 15/64" or wire size #1 bit. We get together to paint the car bodies at the PET shop on the Thursday evening (6:30 PM) following the monthly MWA meeting and all are welcome to help. If you don't have a bandsaw, the club has 2x4's and 2x6's cut at a molding shop and car bodies can be easily cut 2" wide with a table saw or a miter saw. Car stock is available from Terry at the Boone County Mill Shop.

Thanks to Jim Zajicek for the 2x scraps used to cut these car bodies in preparation for the 2018 MWA Christmas Toy Project.
