July Meeting Info

For July we will be meeting at Eultgen Woodworking for a shop tour led by Joe Eultgen.

Joe is a professional woodworker in furniture and turning. You can check out his work at <https://www.eultgenwoodwork.com/> He is going to demonstrate his use of veneer using a guillotine and a veneer press.

Meeting Address:

7151 E. Route Y,
Ashland, MO 65010

July 2023

President's Letter

For me, the last couple of months have been marked by one thing, change. Markets are changing, my work responsibilities are changing, my children are growing into adults. The same goes for our association. Last month, I assumed the role of president from Dean. I realize I have some big shoes to fill. I figured I would take some time in this letter to talk about what I hope to accomplish as your president.

There are so many things that are great about the club. I always enjoy the monthly meetings and what I have learned there. Although I haven't been a big part of it yet, I love the Christmas Toy Project and the needs it supports. My hope is that all of these things continue as they are.

My focus for now will be in a couple areas. First is our digital presence. I want to "level up" our website and social media presence. As many of you know, we have not done anything to those in a few years since we lost our old webmaster. I have started to work on this and plan to have something going by this fall. My hope is that by updating our web presence we can better keep our members informed and attract new members. Note, I would love help from anyone who is willing to pitch in.

The other thing I would like to add to our group are more guest speakers. I have spoken to a few other members about finding experts in certain woodworking methods to come in (or call in) and show us something new. You'll probably hear me ask often if you have any names that come to mind.

In the end, my hope is that the MWA continues to be a group you all value being a part of. I thank you all for being a part of the Midwest Woodworkers Association.

Sincerely,

Midwest Woodworkers' Association

Looking forward:

In August we will have a friend of mine talk about his laser cutting/engraving side gig. He will discuss the equipment he uses and the projects he makes and sells.
